

Code Signing Certificates

Create trustworthy applications

Code Signing Certificate allows software authors to digitally sign their code. Thus, by using the application are:

- Avoid “unknown publisher” and “dangerous software” warning messages,
- Are certain that the software comes from a trusted source,
- Have a guarantee that it is not infected by viruses.

Why you should choose us?

- You protect the brand, company reputation and gain user’s trust,
- You make it possible to reliably identify software and i receive a safety guarantee for your applications,
- Protect intellectual property.
